Dr. Ross and Staff @ Drovers Animal Hospital -

I cannot imagine the heartbreak someone

must feel to have to make the decision to sacrifice

their beloved animal because they can't afford

treatment. How fortunate I am that I never

for a second had to think about that when

it came to my best friend, Dylan.

I am not "rich" by American standards,

but I had enough to get life-saving surgery

for Dylan, & I have a little extra to help

someone else out who may be again going

over the cost of treating their own best

friend.

Please take this \$ for that person or

persons - please use it to treat an innocent

beloved animal that needs care & to prevent

its guardian's heart from breaking by having

to say goodbye too soon.

Something I would love to know about

the animal(s) that this helps - & I would

ask no other thanks than that.

Thomson
with gratitude, Suzanne, Dylan, Sherry, Morgan
