

thank you

9/22/18

Dear Dr. Kris,

Steve and I want to thank you so much for treating our little Papillion, Drago. Because he got sick during the night before we were to travel back to Texas, we were very grateful you worked him into your schedule, were able to do all the testing necessary, diagnosed and treated him. He did very well on the way home as your treatment took hold very quickly, and he's done well since!

The fact that you went out of your way to help us shows that you are not only a very professional doctor, but also a very compassionate person. We appreciate you and your staff very much!

ever so much

Thank you again!

Steve & Bonnie Schaefer
& Drago
